范文一 我生活的变化

Changes in My Life （约 126 词）

Great changes have taken place in my life over the past few years. I used to spend most of my free time watching TV, which made me forget my homework. Now, I have developed a habit of reading and exercising. I often go jogging along the Tianfu Greenway, which is famous for its beautiful views.

What's more, my family used to live in a small apartment, but now we live in a bright new one. Life has become so convenient that I can do many things with a smartphone. Not only has my life become more colorful, but I have also become more confident. I believe these changes have taught me to value every day. I will keep working hard to make my life even better.

亮点解析

1）开篇用现在完成时 Great changes have taken place 总起全篇，直接点题；2）used to spend... watching TV 与 now 形成鲜明对比，两个 which 引导的非限制性定语从句让叙述更加地道流畅；3）结尾 Not only has my life become more colorful, but I have also become more confident. 使用倒装结构，句式高级且表意自然，升华“变化让我成长”的主题。

范文二 家乡成都的变化

Changes in My Hometown （约 137 词）

Chengdu, my hometown, has changed a lot over the past ten years. I still remember the narrow streets that were full of people and old bikes. At that time, few people could imagine the changes that were coming. The city has built a large metro network, so people can travel to almost every corner of the city quickly. Wide roads have taken the place of small paths, and high buildings have risen where low houses once stood.

Moreover, Chengdu has become a famous “Park City”. The Tianfu Greenway, which stretches across the whole city, offers people a wonderful place to exercise and relax. Not only is the environment much better now, but people's lives are also much more convenient. I am proud of my hometown and I believe it will become even more beautiful in the future.

亮点解析

1）两处定语从句 that were full of...、that were coming 描写旧时街道，画面感强；2）Wide roads have taken the place of small paths 与 high buildings have risen where low houses once stood 用 take the place of、rise 两个动词生动呈现新旧更替，where 引导地点状语从句；3）Not only is the environment... but people's lives are also... 倒装结构提升句式层次，结尾 I am proud of 升华情感。

亮点句： *High buildings have risen where low houses once stood.* （译文：高楼大厦在昔日低矮房屋所在的地方拔地而起。）

范文三 给外国笔友的信：介绍成都的变化

A Letter About the Changes in Chengdu （约 140 词）

Dear Tom,

How is everything going? I'm glad to tell you that great changes have taken place in Chengdu, my hometown.

Chengdu used to be a city of low houses and narrow streets. But now it has become a modern "Park City". The metro network has made traveling so convenient that you can reach almost everywhere in the city quickly. What's more, the Tianfu Greenway, which is loved by people of all ages, offers a wonderful place for running and cycling. Not only has the environment become cleaner, but the city has also built more parks and wide roads. Last week I rode along the Greenway with my parents, and I was amazed by the beautiful views.

I hope you can come and see the new Chengdu yourself. I'm sure you will fall in love with it.

Yours,

Li Hua

范文四 过去与现在的我

How I Have Changed （约 144 词）

Looking back at the past three years, I find that I have changed a lot, not only in appearance but also in personality.

I used to be a quiet and shy boy. When teachers asked questions, I never raised my hand because I was afraid of making mistakes. However, now I have become confident and outgoing. I often join in class discussions and share my ideas with others. I used to hate sports, but now I have fallen in love with running. Every weekend, I go running with my father along the Tianfu

Greenway, which makes me healthy and energetic. What's more, I have made great progress in my study. I have developed good learning habits, so my grades have improved a lot.

These changes have taught me an important lesson: as long as we try our best, we can become better and better.

亮点解析

1）开头用非谓语动词 Looking back at... 引出回忆，not only...but also... 概括变化维度；2）两处 used to... but now... 对比性格与爱好，一般过去时 never raised my hand 与现在完成时 have fallen in love with 切换准确；3）which makes me healthy and energetic 定语从句自然衔接，结尾 as long as 条件句点出变化带来的成长感悟。

范文五 环境的变化与我们的行动

Changes in the Environment and What We Can Do （约 142 词）

The environment has changed greatly in recent years. In the past, some rivers were so dirty that fish could not live in them, and many people used to throw rubbish everywhere. However, great changes have taken place. The water has become cleaner, the streets are much tidier, and trees have been planted along the wide roads. Chengdu is now praised as a "Park City", and the Tianfu Greenway has become a popular place for walking and cycling.

These changes did not happen by themselves. Not only has the government worked hard to protect the environment, but ordinary people like us have also taken action. We have learned to sort rubbish and use public transport more often.

The environment is our home. I believe that as long as everyone plays a part, our city will become an even better place to live in.

亮点解析

1）过去用 so dirty that... 与 used to throw rubbish 描写环境问题，现在完成时 have taken place、has become 呈现变化成果，对比鲜明；2）These changes did not happen by themselves. 独立成段、短句有力，not only...but also... 倒装结构引出政府与个人的共同努力；3）结尾 as long as 条件句发出倡议，everyone plays a part 呼应单元话题，主题升华。

亮点句： *Not only has the government worked hard to protect the environment, but ordinary people like us have also taken action.* （译文：不仅政府努力保护环境，像我们这样的普通人也已经行动起来。）

范文一 我的阅读习惯

My Reading Habits （约 139 词）

Reading plays an important role in my life. I believe that good reading habits are the key to smart learning.

Every evening, I spend about thirty minutes reading before going to bed. I usually choose books that interest me, such as stories, science magazines and short articles. While reading, I always keep a notebook beside me. When I meet new words, I don't stop at once. Instead, I try to guess their meanings from the context, which makes me a faster reader. After finishing a book, I write a short review and share it with my classmates. By doing this, I not only remember more details but also improve my writing.

The more I read, the wider my world becomes. Reading makes me feel relaxed after a busy day, and I think that it is a habit worth keeping.

亮点解析

1）开篇用 that 引导的宾语从句直接点题，观点鲜明；2）非谓语动词连用（reading before going to bed、While reading、After finishing a book）句式简洁地道，which 引导的非限定性定语从句进一步补充好处；3）by doing 表示方式，not only...but also... 递进强调，结尾 the more...the more... 升华主题。

English is my favorite subject, and I have found some smart ways to learn it well.

First, I listen to English songs and watch English movies every weekend. I believe that learning from real materials is much more interesting than only studying textbooks. Third, I practice speaking by talking to myself in English and joining the English corner at school. By doing these things, I have made great progress in the past two years.

I think that interest and good methods are the keys to learning a language. The more I practice, the more confident I become. English has opened a new window for me, and it has become a part of my life.

Third, learn from your mistakes. I keep a notebook of my mistakes and review it every week, which helps me avoid making the same ones again.

Paper, a Great Chinese Invention （约 127 词）

As we all know, paper is one of the greatest inventions in the world. Around 105 AD, it was improved by Cai Lun, a famous inventor in the Eastern Han Dynasty.

Before paper was invented, people wrote on bamboo or silk, which were either heavy or expensive. After Cai Lun's improvement, paper became much cheaper and lighter. It is made of wood, bamboo and other plants. Today, paper is used for writing, printing and making books. What's more, it is not only used in China but also in every corner of the world.

范文三 我眼中最重要的发明

The Most Important Invention in My Eyes （约 131 词）

There are many great inventions in the world, but in my eyes, the most important one is the telephone.

The telephone was invented by Bell in 1876. Before it was invented, people could only write letters to communicate with those far away, which took a long time. Today, the telephone is used for keeping people connected. No matter how far away we are, we can hear the voices of our family and friends at any time. It has not only saved people a lot of time but also brought hearts closer together.

The telephone has become a bridge between people. It shows us that a good idea can make the whole world smaller and warmer. In a word, the telephone has changed the way we communicate and made our life better.

亮点解析

1）首段用 There be 句型引出众多发明，再用“the most important one is...”清晰亮出观点，主题句明确；2）第二段用被动语态 was invented by Bell in 1876 准确交代电话的发明事实，并用 which 定语从句和非谓语动词 to communicate 对比今昔，内容丰富；3）结尾用 not only...but also... 总结电话的意义，“make the whole world smaller and warmer”表达形象，收束有力。

My dream invention is called “Sunny Bag”. It is not only a bag but also a small robot. It is made of light and strong materials, so it is very easy to carry. More importantly, it is used for helping students in many ways. First, it can check our homework and point out mistakes, which saves us a lot of time. Second, when it rains, it can turn into an umbrella by itself. Third, it can tell us the right way to school if we get lost.

I hope this bag will be invented one day. I believe that with the power of ideas, no dream is

too far to reach.

范文二 中国航天的成就

China's Space Achievements （约 141 词）

In recent years, China has made great progress in space exploration, and I feel proud of my country.

In 2003, Yang Liwei travelled into space and became the first Chinese astronaut. His success showed the world that China could send people into space.

Today, Tiangong, China's own space station, is flying high above the Earth. Chinese astronauts live and work there, doing scientific experiments.

The Chang'e programme has helped us learn more about the Moon, and it will be continued in the future.

These achievements belong not only to the astronauts but also to all the scientists working hard behind them. They show us that if we keep trying, nothing is impossible.

I hope that more young people will be encouraged to study science, and I believe that more wonders of space will be discovered by scientists in the coming years.

范文三 太空站里的一天

A Day in the Space Station （约 143 词）

Have you ever wondered what a day in a space station is like? Let me imagine a day on Tiangong, China's space station.

In the morning, astronauts get up and float to the window. Looking out, they can see the Earth far below.

After a simple breakfast, they begin their work. Some do scientific experiments, and others check the machines carefully.

Because there is no gravity, everything floats in the air, and astronauts must be careful. More food and water will be sent to them by spaceships.

In the afternoon, they exercise on special machines to keep their bodies strong.

In the evening, they talk with their families through video calls. At night, they sleep in sleeping bags which are tied to the walls.

A day in space is busy but full of surprises. I hope I can experience it myself one day.

范文四 我们为什么要探索太空

Why We Explore Space （约 142 词）

Why do we spend so much money exploring space? In my opinion, space exploration is not a waste of money, because it brings us many benefits.

First, exploring space helps us learn more about our planet and the universe. Satellites help us forecast the weather and find our way.

Second, it pushes science and technology forward. Many inventions that were first used in space now serve our daily life.

Third, space exploration teaches us to dream big. Looking up at the stars, we realise how small we are, and we learn to protect our home, the Earth.

What is more, the future of humans may lie beyond the Earth. I believe that one day new homes will be built on other planets.

In a word, exploring space not only satisfies our curiosity but also creates a better future for all of us.

一、满分范文

范文一　我的音乐故事

My Music Story　（约 144 词）

Music has been my closest friend since I was a little girl. The person who first brought music to me was my grandmother, whose soft songs helped me fall asleep every night. When I was nine, I got a small guitar, which soon became my favourite thing.

As I grew up, music became a way for me to express my feelings. Whenever I feel tired after a day of study, I pick up my guitar and play a few songs that I have written myself. Last month, my friends and I played at the school art festival. The moment when the whole hall began to clap was the proudest moment of my life.

Music, which never asks for anything but always gives me warmth, has taught me to face difficulties with a smile. I believe it will stay with me for my whole life.

范文二　我最喜欢的一首歌

My Favourite Song　（约 144 词）

Among all the songs I have heard, the one that touches me most is Heal the World by Michael Jackson. I first listened to it in Grade Seven, and it has stayed in my heart ever since.

What makes this song special is not only its gentle melody but also its message. The lyrics, which are simple but warm, encourage people to care for children and the planet. Michael Jackson, who devoted much of his life to charity, believed that music could bring people together. Every time I hear the line “make a better place for you and for me”, I feel a strong wish to do something helpful.

This is the song that has taught me to be kind and hopeful. I often share it with my friends, and I hope more people will join hands to make our world a better place.

亮点解析

1）开篇用 the one that touches me most 中 that 引导的定语从句开门见山地点出最爱的一首歌，Among all the songs I have heard 作背景铺垫；2）The lyrics, which are simple but warm 与 Michael Jackson, who devoted much of his life to charity 两处定语从句分别补充说明歌词与歌手，使介绍更有层次；3）结尾 This is the song that has taught me to be kind and hopeful 再用定语从句收束全文，并发出分享音乐的号召，主题积极向上。

亮点句： *The lyrics, which are simple but warm, encourage people to care for children and the planet.*（译文：歌词简单却温暖，鼓励人们关爱儿童、关爱地球。）

范文三　肖邦，给我力量的音乐家

Chopin, My Great Inspiration　（约 147 词）

The musician who gives me strength is Frederic Chopin. Born in Poland over two hundred years ago, he is a great composer whose music has moved people all over the world.

I first heard Chopin's music in my piano class. My teacher asked me to play a short piece that he wrote when he was young. The notes are simple, but the music is full of feeling. He left his homeland and lived in France, but he never stopped loving Poland. The music that he created in his hardest days still sounds full of hope.

Last term, I did badly in an exam and almost gave up playing the piano. That night I listened to Chopin's Nocturne, which calmed me down and gave me courage. Thanks to him, I have learned that difficulties are like low notes in a song: they make the beautiful parts even sweeter.

亮点解析

范文四　难忘的音乐会

An Unforgettable Concert　（约 139 词）

Last Saturday, my parents took me to a concert at Chengdu City Concert Hall, a modern building that stands near the Sichuan Conservatory of Music. It was my first time to enjoy a classical concert in such a wonderful place.

The hall was full of excited listeners. A young pianist, who had just come back from abroad, played several famous pieces. The most unforgettable was a piece by Chopin, whose soft and beautiful notes seemed to carry us to another world. When the music stopped, the whole hall was silent for a moment, and then people stood up and clapped for a long time.

On the way home, I kept thinking about what the pianist had said: "Music is a language that everyone can understand." This concert, which I will never forget, has made me love music even more.

亮点解析

范文五 音乐让生活更美好

Music Makes Life Better （约 143 词）

Good morning, everyone! Today I want to talk about something that makes life more beautiful: music.

Music is everywhere in our daily life. It can cheer us up when we are sad and calm us down when we are nervous. In Chengdu, music is especially close to us. In People's Park, we often hear old people playing the erhu, whose music sounds warm and peaceful. In Kuanzhai Alley, singers sing songs that make visitors stop and smile.

Music also brings people together. At the art festival last month, our class sang a Chinese song which we practised for weeks. Although we did not win first prize, we felt proud of our work.

I hope you can find a song, a singer or a piece of music that gives you strength. Let music be your friend, and you will find life full of rhythm.
